**To Whom So Ever It Concerns**

Serve Samman is doing a lot of work in partnership with ICARE Eye Hospital. The work is for the weaker sections of the society. They conduct eye camps at various villages and in slums in and around Delhi. They perform eye check up and screening programmes in communities that are economically backwards and help people by providing free spectacles, medical and surgical intervention.

It gives us pleasure to certify that till July 2013, with our association they have screened 9477 patients for eye ailments in 82 eye camps. Over 973 patients were referred for surgery to ICARE.

We wish them every success in their projects.
